

Strategic Plan 2024 - 2027

A FOUNDATION FOR CAMBRIDGE
United for a **Brighter Future**

Vicky Neal

Head of Cambridge United Foundation

**“‘A Foundation for Cambridge’
is who we are and what we do...”**

Our mission hasn't changed. We harness the power of sport to make positive impact on the community we serve. This new strategy builds upon a strong platform of consistent and trusted support that the foundation has provided over the past 14 years, and we are now springboarding our aspirations to have impact on more individuals across Cambridge.

Cambridge is officially the UK's most unequal city. As a world-renowned city, it is famed and admired for education, research, and technology. However, the top 6% of earners who live in Cambridge take home 19% of the total income, while the bottom 20% of the local population accounts for just 2%. Shockingly, the average life expectancy for men and women in the most deprived areas of Cambridge compared to the most affluent ones is 11.6 years less (ONS, 2021). This is simply unacceptable.

Cambridge United Foundation was established to further deepen the impact of the Club's work in its community. Serving as the charitable arm of the football club, we leverage the club's profile within the region, and use the power of the badge to enhance lives across Cambridge through the programmes we deliver. This strategy outlines our plan for the next three years as a foundation for Cambridge, with a vision to unite the city for a brighter future.

Godric Smith

Chair of Trustees for CUF

We've been guilty in the past of allowing moments in games swing the momentum against us, but today we managed to swing them in our favour. We were great in both boxes, and made sure second balls and duals fell in our favour at the right times. Proud of the bravery the girls showed when it mattered, and definitely took the chance to kill the game when we earned it. A great result, performance, and stepping stone to kick on. We've been guilty in the past of allowing moments in games swing the momentum against us, but today we managed to swing them in our favour. We were great in both boxes, and made sure second balls and duals fell in our favour at the right times. Proud of the bravery the girls showed when it mattered, and definitely took the chance to kill the game when we earned it. A great result, performance, and stepping stone to kick on.

Alex Tunbridge

CEO of Cambridge United FC

"Being embedded in our local community is key for us as a football club."

Cambridge United is far more than just a football club that plays at 3pm each Saturday. We are a social asset with a responsibility to help support and improve the lives of our city's residents.

Cambridge United Foundation is the vehicle that allows us to achieve this goal, using football to help engage and inspire people from across the city.

Across the course of the next 3 years we will be working hand in hand with the Foundation as they seek to meet their strategic aims and collectively strengthen our ties and impact within the city.

"It has helped me with friendships, making new friends and communicating to people in general. It has helped me with my confidence and given a direction for my future."

STRATEGY OVERVIEW

Our Priority Groups

Young People

Inspire and empower future generations, and increase equality of opportunity.

Educate on the importance of personal wellbeing on physical and mental health.

Adults

Provide opportunities for marginalised groups to be physically active.

Improve happiness, life satisfaction, and sense of worth.
Support personal development and employability.

Older Adults

Improve happiness, life satisfaction, sense of worth, and sense of belonging in the community.

Support local health services by reducing the need for non-medical appointments.

We Will Be

A foundation for Cambridge that connects communities, bringing people together.

A foundation for Cambridge that tackles inequality.

A foundation for Cambridge that brings sporting opportunity for all.

Impact Targets

20,000

participants engaged through our programmes

£2 Million

in social value provided to Cambridge

£300,000

raised through fundraising events

45

established partners to support our work

OUR MISSION

To use the power of sport to positively impact the communities we serve

OUR VISION

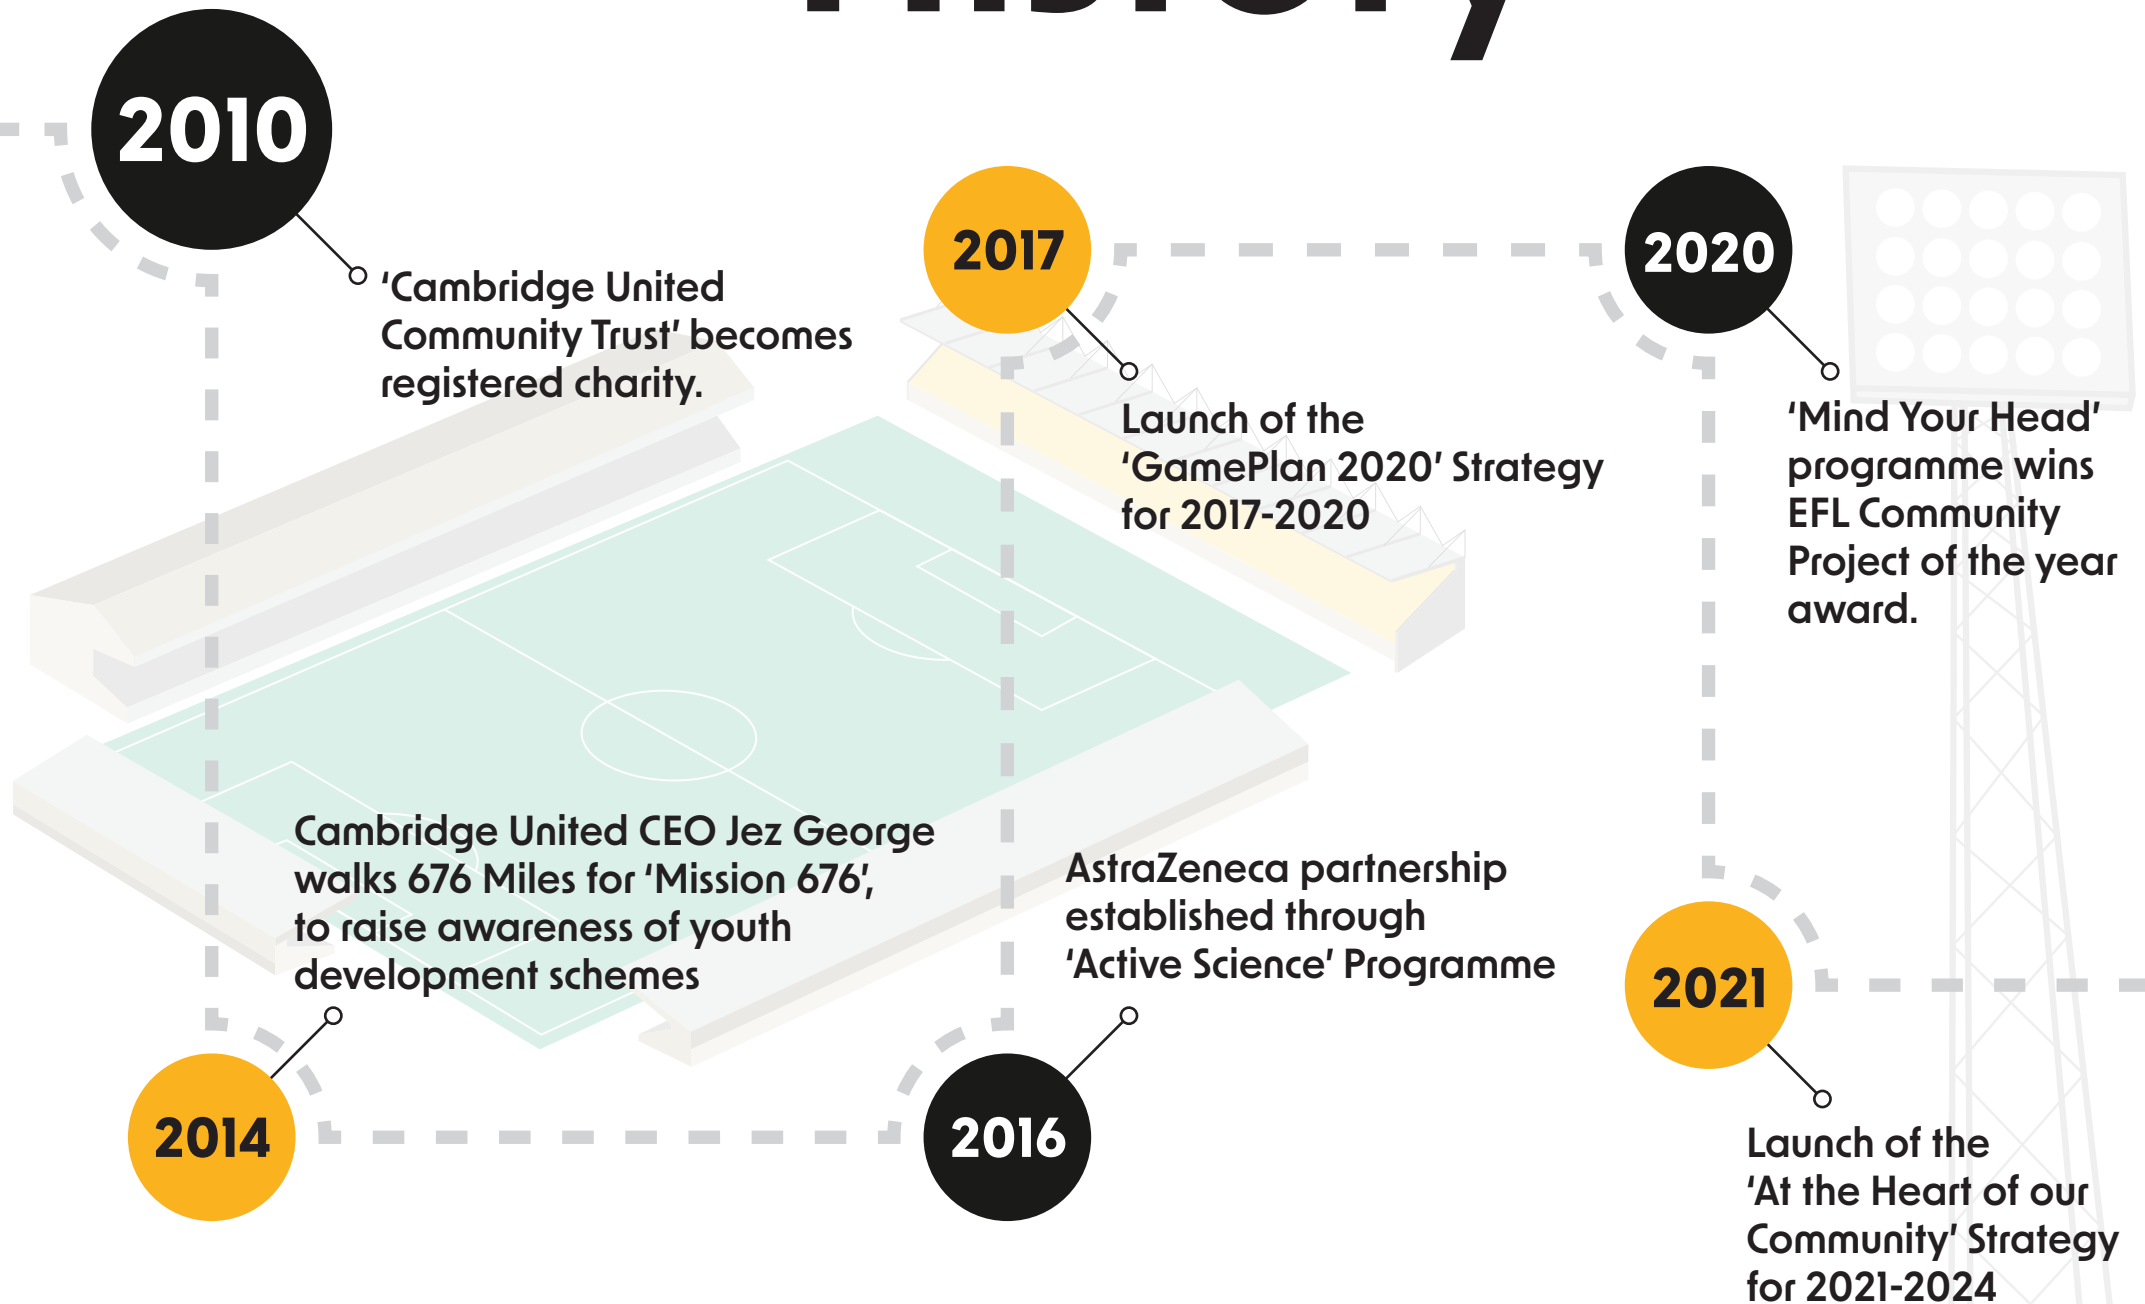

To enhance the lives of families across Cambridge

OUR VALUES

Be Aspirational, Be Honest, Be Resilient, Be Inclusive

Our History

'At the Heart of our Community'

Strategy Reflection

**JUNE
2023**

Rebranded as
'Cambridge United
Foundation'

**JAN
2024**

Pledge United
project launched in
Sancton Wood
School

'Forever United' project
launched, incorporating
all CUF sessions
for older adults.

**OCT
2022**

12,857
participants engaged in 2023-24

**AUG
2024**

10
programme areas
delivered each week

£1 Million +
in social value per year

74% of participants reported a strong
sense of belonging in the community:
20% above the UK Average

UNDERSTANDING THE DEMANDS

Local Need

We are committed to creating a positive impact across Cambridge, and focusing on the more in-need wards - Abbey, King's Hedges, Trumpington

Abbey Ward & Kings Hedges amongst the 20% most deprived areas in the country

5% of individuals living in the Abbey Ward are unemployed, compared to a national average of 3.5%

Abbey Ward reported the highest number of benefit households at 944, or 12.72% of all benefit households

Central Cambridge has a large proportion of Asian/Asian-British individuals in comparison with the national average

Trumpington Ward has the largest child benefit population at 639 children, representing 14% of the total child population

East Chesterton has the largest number of pensioners (308, representing 21%) living in benefit households

Cost of Living

In November 2023

52%

adults reported an increase in living cost from the month before

Due to higher energy costs

>18%

of businesses expected to increase cost of their goods in 2024

Food, Energy, & Fuel

prices are rising, and make up a larger proportion of spending for lower income populations

20% of the UK
population

Plus

ICS-Chosen groups
with below average
healthcare access

5 Clinical Areas

Maternity
Hypertension
Severe Mental Illness
Early Cancer Diagnosis
Chronic Respiratory Disease

Employment

In September 2023

UK employment was **75.5%** - 1.1% lower than pre-pandemic
(ONS)

Weekly Hours Worked

Decreased by **18.8 million** hours throughout the year - **12.2 million** less than pre-pandemic

Vacancies

Number of available jobs are in decline

PRIORITY AREA 1

YOUNG PEOPLE

Need

Children living below the poverty line are significantly more likely to suffer from a learning difficulty

Children exposed to poverty are more likely to offend as adults.

25% of children who grow up in poverty, had criminal convictions by the age of 35.

Individuals who leave school with no qualifications are significantly more likely to suffer from depression, anxiety and alcohol abuse.

(Global OECD data)

Desired Impact

Empower future generations to increase aspirations and maximise potential, increasing equality of opportunity.

Improve young people's understanding of personal wellbeing and its impact on both their physical and mental health, reducing educational inequality.

Fundamental KPI's

2k free healthy meals

1k hours of alternative provision

30 unique youth-focused workshops

PRIORITY AREA 2

ADULTS

Need

67% of men and 60% of women are overweight or obese in the UK.

(NHS data)

Over 40% of adults with one or more disability take part in less than 30 mins of physical activity per week.

(Sport England data)

Almost 1 in 5 members of the adult population (18.2%, 8.8 million) reported having no qualifications according to the ONS in 2021.

Desired Impact

Support demand on local frontline health services.

Increase opportunities for marginalised groups to be physically active.

Raise levels of happiness life satisfaction and sense of worth, bringing people together through sport.

Increase personal development opportunities to help prepare for employment.

Fundamental KPI's

2

adult health-focused sessions

150

unique disability sport participants

20

adult education qualifications

PRIORITY AREA 3 OLDER ADULTS

Need

In 1960 the average life expectancy was 71.13 years old, this has now risen to 80.9 years.

There has been 26% growth in number of over 65s from 2011-2021, with estimated further 26% growth by 2031, with much of this growth in the over-80s age bands.

"The forward trends set out cannot be ignored-it is simply a matter of time before our health and care system buckles under the needs of an increasingly older population"

Age UK research, 2023

In 2022, 49.63% of adults in the UK reported feeling lonely occasionally, sometimes, often or always.

Approximately 7.1% of people in Great Britain experience chronic loneliness - feeling lonely 'often or always'.

Desired Impact

Increase sense of belonging to truly connected communities.

Raise levels of happiness, life satisfaction and sense of worth, achieved by bringing people together in the name of Cambridge United.

Support the increasing demand on local services by reducing the need for non-medical appointments, providing more equal access to health services for the whole community.

Fundamental KPI's

unique referrals into the Forever United programme

unique Forever United participants
